SENSATIONAL

Tesora Stockholders Are Asked to Pay \$80,000.

INDEBTEDNESS IS \$95,000

ACTION OF DIRECTORS CAUSED GREAT SURPRISE.

The minority stockholders of the Tesera Mining company will be surprised this morning to learn that late yesterday afternoon an assessment calling for 20 cents a share on the capital stock, or \$80,000, was levied by the neighb board of directors.

That all has not been smooth sailing with the management for some time past has been indicated in the steady fall in price of the shares from \$1.50 to 21 cents, but with the mine producing approximately fifteen cars of crude ore per month and the mill turning out nearly a carload of concentrates daily, there was no thought among the mi-nority stockholders that such a heavy

levy would be made.

Secretary Heffron's Statement.

When asked for an explanation of the action taken, Colonel H. G. Heffron, secretary of the company, merely stated that the company was in debt and that the levy made had been necessary on that account. How much was owing or how the delicit had accountiated he did not feel at liberty to state, though he was confident that on the return of Messrs. McCornick and Posey from Arizona he would receive authority to publish a statement showing the company's financial condition—its resources and expenditures during the year or over that the Bingham people held 231,500 of the 400,000 shares in the corporation, and had neither bought nor sold a share since the purchase of that number was made.

From the data secured on the out-

Since taking possession of the property the present management has done a great deal of development work and built a mill that cost \$25,000, while changes are now being made that will run the amount up to between \$30,000 and \$32,000. Allowing that the company has had an average of sixty men employed during the year, the monthly expenditures, it is argued, could hardly exceed \$10,000, including the cost of imexpenditures, it is argued, could hardly exceed \$10.000, including the cost of improvements. It is stated by Secretary Heffron that the mill has not been a success so far, but leaving the mill out of the question the mine has been productive of a considerable tonnage of shipping ore and it is not many months since the report was given out that between \$15,000 and \$20,000 per month was resulting from ore sales.

Stanton announces that he has be itemsessed with the condition of the mine at that time that he hypothicated his stock in order to add 2,000 shares more to his holdings. He spoke his mind quite freely, and without hesitation declared that the conditions certainly do not justify the assessment. The gentleman says he was reliably informed that the company had more than enough money to pay for.

JUDGMENT FOR HASBROUCK.

Doctor Sued for \$265 and Got \$145.

Justice Lochrie wound up a case that has long been pending in his court yesterday by granting Dr. Hasbrouck judgment for \$145 for professional services against Mrs. Ellen Garey.
